

DAVID KIM

Email: david.kim@example.com | Phone: +1-555-081-3921 | GitHub: github.com/davidkim-ml

Location: Seattle, WA

PROFESSIONAL SUMMARY

Senior Machine Learning Engineer with 5 years of experience researching, building, and deploying deep learning and NLP models into production. Expert in PyTorch, Scikit-Learn, MLOps, and automated feature engineering.

TECHNICAL SKILLS

- Languages: Python, SQL, C++
- ML & Deep Learning: PyTorch, TensorFlow, Scikit-Learn, Hugging Face Transformers, XGBoost, LightGBM
- Data Engineering: Pandas, NumPy, Apache Spark, PostgreSQL
- MLOps & Cloud: Docker, FastAPI, MLflow, AWS SageMaker, Git, CI/CD

EXPERIENCE

Senior ML Engineer | Cortex AI (2022 - Present)

- Architected NLP classification and semantic search service using Hugging Face Transformers and PyTorch, achieving 94% F1-score.
- Built automated MLflow tracking pipelines reducing model iteration cycle time by 40%.
- Packaged models inside Docker containers and deployed low-latency REST endpoints via FastAPI on AWS.

Data Scientist | DataVibe Analytics (2019 - 2022)

- Built churn prediction and customer lifetime value models using XGBoost and Scikit-Learn.
- Processed 10TB+ clickstream datasets utilizing Apache Spark and SQL.

EDUCATION

M.S. in Computer Science (Machine Learning) | University of Washington (2017 - 2019)

B.S. in Applied Mathematics | University of Washington (2013 - 2017)
